

\$54 in 24 – Fundraising Challenge for Autism Speaks TeamUp

A one-day online fundraising challenge to raise \$54 in support of the 1 in 54 kids in the U.S. on the autism spectrum

Key Messages:

- While schools and activities look different this year, and we can't physically come together for Autism Speaks events like we have in the past, our mission remains the same and our work is more important than ever!
- This year, we're asking students to fundraise for their local virtual 5K by participating in our "\$54 in 24" fundraising challenge.
- The "\$54 in 24" challenge is a fun, interactive (and even competitive!) way for students to raise vital funds and commit to creating a more understanding and accepting world for people with autism.
- We are challenging each student to raise \$54 in 24 hours. Whether it's asking six friends to contribute \$9 each or asking two family members to donate \$27, every dollar raised helps propel our mission forward at a time when it's needed more than ever.
- Every dollar raised helps propel Autism Speaks' mission forward at a time when their work is more important now than it has ever been. Your support will have a meaningful, immediate impact for people with autism and their families, during a time when it's needed more than ever. Join me in raising \$54 TODAY to help provide a brighter life on the spectrum for people with autism!

Registration Instructions:

Before your \$54 in 24 challenge, have your designated Team Captain head to the [Autism Speaks TeamUp page](#) to register for your event. Once your team has been created, you can invite family and friends to register for the team. Each participant will gain access to their Participant Center, where they can:

- Customize their page with a photo and their story.
- Set a fundraising goal to help propel our mission forward.
- Start their Facebook Fundraiser and harness the power of social media to reach their goal.
- Share, share and then share some more!

Add your team's 5K link or your individual Participant link to your Instagram bio so people know where to donate!
